

To all,

Thank you in advance for your consideration.

Bremec on the Ht's Garden Center, has expressed comments from customers on the difficulty to see their location when traveling from the West heading East on Cedar. The drive is hidden until they almost past the entrance because of the buildings higher and closer to the road.

The current allowable sign is located on the building at the peak of the building, this is a non-functioning sign due to size and location.

Bremec offers beautiful gardens to the frontage of their building and is only noticed by that. Their current sign provides no direction. The sign location near the entrance would to offer direction for customer traffic as to where to enter and exit safely.

The sign design compliments the style and offers visibility to the Bremec branding, location and direction as shown in our proposed location.

Thank you for your time.

Best regards,

A handwritten signature in black ink that reads "Dianna Haskett".
