Greetings

Basically I am seeking a permit to keep, care and house 3 (THREE) white Peking ducks on my property. I keep them for their eggs. Duck eggs are like chicken eggs except that they are larger, harder and more nutritious. Ducks are in the same family as chickens, for the exception of having webbed feet and a higher need for water.

Currently I keep them in an enclosed area of the back yard with access thru a side door of my 3 car garage to a warm enclosed shelter area I created for them.

My plans are to build a duck house for them in the spring. I have no problems with any of my neighbors.

Sincerely

Thomas A. Duro
