

STATEMENT OF PRACTICAL DIFFICULTY

To obtain a variance, an applicant must show by a preponderance of the evidence, to the satisfaction of the Board of Zoning Appeals (BZA), that strictly adhering to the Zoning Code's standards would result in a "practical difficulty" for the applicant. To this end, a written statement of practical difficulty must accompany an application for a standard variance. Please complete this Statement of Practical Difficulty, **by addressing all of the factors listed below that are relevant to your situation.** Additional documents may be submitted as further proof.

In deciding whether to grant a variance, BZA will consider the following factors in determining whether a practical difficulty exists:

A. Explain special conditions or circumstances that exist which are peculiar to the land or structure involved and which are not applicable generally to other lands or structures in the same Zoning District. (examples of this are: exceptional irregularity, narrowness, shallowness or steepness of the lot, or adjacency to nonconforming and inharmonious uses, structures or conditions):

Property grade is steep

B. Explain how the property in question would not yield a reasonable return or there could not be any beneficial use of the property without the variance.

*Unusable parking area, to eliminate street parking
Improving safety issues!*

C. Explain whether the variance is insubstantial:

No, the structure will be strong

Explain whether the variance is the minimum necessary to make possible the reasonable use of the land:

Early accessible, improved safety on the property, the area is unusable as it is.

D. Explain whether the essential character of the neighborhood would be substantially altered or adjoining properties would suffer a substantial detriment as a result of the variance.

The neighborhood would be improved with this addition

E. Explain whether the variance would adversely affect the delivery of governmental service (e.g., water, sewer, garbage).

No

F. Did the applicant purchase the property without knowledge of the zoning restriction?

No

G. Explain whether the special conditions or circumstances (listed in response to question A above) were a result of actions of the owner.

safety needed to fit the owner & occupants
of the property. Owner must move 2 cars to get out
of the current garage

H. Demonstrate whether the applicant's predicament feasibly can be resolved through a method other than a variance (e.g., a zone-conforming but unworkable example)

No, owner needs more parking with city laws.
to comply

I. Explain whether the spirit and intent behind the zoning requirement would be observed and/or substantial justice done by granting the variance.

By granting the variance we will be in compliance
with city regulations.

J. Explain whether the granting of the variance requested will or will not confer on the applicant any special privilege that is denied by this regulation to other lands, structures, or buildings in the same district.

None
